Mike,

Thanks for the “heads up”, and actually, the meeting will be at 2:30 Tuesday afternoon. I guess I’ll just wait for my marching orders, and it looks like this is starting to fall into the category of “no good deed goes unpunished.”

Have a good weekend.

Larry

Larry,

After looking at the power point, I have some concerns, especially with the first 3 or 4 slides. As you know, sometimes these slides can get in the hands of the wrong people and they can use bits and pieces ( in this case headlines) without the benefit of explanation from the author. I think we may need to sit down with Austin and explain.

I also wanted to give you a “heads up” that Harold Hamm is communicating with President Boren about the possibility of a meeting on Tuesday. Harold’s agenda is in no way meant to be unconstructive. He just wants to make sure that everyone concerned understands the potential public relations repercussions if we don’t handle this issue correctly. The meeting has been tentatively set for Tuesday at 1:00. I assume it will be held in President Boren’s office and you and Austin will need to be present if possible.

I will be in meetings this afternoon but can communicate by email. Otherwise, we can talk Monday if need be.

Thanks for your help!

Mike
