I don't think it was on EPA's behalf. Not sure how/why he knew, but he's not supposed to. I'm worried because of who else he notified. Only you and Stacey are invited. I sent him a not-so-nice email.

Yes, he did. That was nice...but like you said, kind of strange that a lobbyist is reaching out on behalf of the EPA. Ha!

This has been interesting. I'm cranky mainly cuz I've had to miss 2 shows to handle some of this. Probably easier for me to do it, but it's been odd.

Question: Did Allen Freemyer reach out to you on the Coeur part?
