Subject: Oil and Gas Updated Numbers

Hi Steve,

As discussed, will you send the updated RLSO and clean versions of the preamble (RIA and TSD as necessary) that show the corrected numbers? Once Jim and/or Amanda are able to take a look and are okay, they will ask EPA to upload to ROCIS and conclude review by email.

Subject: Oil and Gas Amendments - 2060-AT59 - published in the FR yet?

Hi Amy,

I saw that the Administrator signed this action on 2/23/2018, but couldn't track down the FR notice for the final rule. What is the status? Is the agency going to publish this in this fiscal year? If it is not published in the FR by September 30, 2018, the agency will not be able to take credit for the rule in the EO 13771 accounting for FY18.

Chad,

Yes, we can set up a call for 10am Friday. We will reserve a phone line and send out a calendar invitation. We'll also send the requested documents and analysis on Thursday for review before the call on Friday.

Thanks.

Karen and Steve,

Are you available for a call Friday at 10am? We would like to discuss the marginal cost analysis further.

- Will you provide the revised supporting memo documents that you referenced in your email?
- Will you also provide the marginal cost analysis that you performed so we can have a look for Friday's discussion.

When you provide the passback, will you provide the cost, benefit, and net benefit breakout for the various affected sources (e.g. compressors, production wells, low-production, north slope compressors, north slope wells) for the various monitoring frequencies so that we can compare the net benefits between the options?

Subject: Re: EO 12866 Comments on Oil and Gas NSPS

Hi Dave,
Yes, send it over to me.

We still feel that annual monitoring for compressors and the other option 3 monitoring frequencies are the best option due to the reasons we explained on our call.

Chad

Thanks, Chad

I understand you are out of the office this week. We intended to send you the next revisions based on the policy discussion this week. Based on your status, a couple of quick questions:

1) should we send it over in your absence and if so, to whom?

2) I gave you a rundown on our proposed lead option and the monitoring frequencies. You said you needed to discuss that with your management. Did you get a chance to do that before you left?

Thanks,

David
