Dear SFS PIs and Staff:

You are receiving this message since you have registered for the CyberCorps SFS Job Fair. I was hoping until last minute for the government shutdown to end this weekend. Unfortunately, it seems the government will not open until at least Thursday so I am not allowed to serve in my NSF capacity until then and will not attend the event. The Job Fair is still happening and you will be in good hands – Vincent and Kathy will be coordinating the event:

- Vincent Huang, NSF (chuang@nsf.gov)
- Kathy Roberson, OPM (Kathy.Roberson@opm.gov)

The program will be slightly modified and you will get the agenda update later today. This year, we will have at least three congressional visits and I need a favor. On **Wednesday, Rep. James Langevin** (D-RI-2) will be visiting the Job Fair from approximately noon to 1pm. He will arrive around 12:15 and must leave before lunch starts at 1:00pm. Therefore, it creates a logistical challenge to arrange a session with as many faculty and students as possible. If you are available, please attend that session and bring your students. Vincent and Kathy will provide more information.

It is really sad that several folks from NSF and DHS are not able to attend the Job Fair after working on this event for almost 6 months. We hope that you will enjoy and that your students will get multiple offers!

With Best Wishes -

Victor Piotrowski, Ph.D.
